SOURCE:

In April 1953 construction was started on a new airfield in Kakolewo (053/W73). The airfield is situated about 1.5 km. from Kakolewo and 4 km. from Czarna Wies. The nearest railroad station is Satopy (about 6 km.). The workers were mostly civilians from the neighboring area.

25X1A

Comment. According to Source's description of the construction, it is more likely that the field will be a gliding school since the hills on the eastern side of the field are a good starting place for gliders and since there are other sport clubs in the area.

25X1A

Comment.  reported the construction of a new airfield at Szarki which is located a few kilometers from Kakolewo. This report added that construction was begun between 20 and 30 May 1953. It is very possible that the airfields are one and the same.
